- Partially-raised design of bottom allows use with or without a trivet
- Dimensions: 12" long by 6.5" wide by 7" tall
- Warranty: 1-year replacement

## Instructions & Warnings:

- This product should only be used for heating water on a wood or coal stovetop. It is not for cooking or other purposes.
- Note that the lid only fits one way. The lid has large and small tabs that must line up with the respective large and small indents on the base.
- Use extreme care to avoid burn hazards from boiling water and hot surfaces.
- Do not fill the steamer with water through the hole in the top, as overflowing can result. Only fill the steamer base after removing the lid.
- Do not heat this product without water, as damage to the coating may occur.
- Corrosion, abrasion, or other damage to certain stovetop surfaces may result from spills, overflows, or if the product is not carefully placed onto the stove.
- Avoid impact to the coating, as it may chip.
- Depending on your water, mineral build-up may occur inside the steamer. Gently clean the interior with a scale removal cleaner or a mild abrasive.
